MEMORANDUM FOR: Lieutenant General William E. Odom, USA  
Director, National Security Agency/  
Chief, Central Security Service

SUBJECT: Supercomputing Research Center (SRC)

1. Thank you for the clarification contained in the DDIRNSA 3 May 1985 information memorandum on the Supercomputing Research Center (SRC). Since its inclusion as a last minute addition to the FY 1985 NFIP, we have provided significant support for the SRC initiative. Our degree of concern for this was further evidenced by John McMahon's 6 December 1984 letter to the DepSecDef urging him to reconsider the DoD position of dropping support for the SRC. I am encouraged to learn that ASD-C<sup>3</sup>I is now supportive, and hope that DoD will, in fact, become a full financial partner in FY 1987, although I had hoped that it would have been earlier. [redacted]

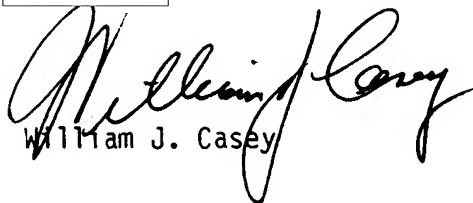

25X1

2. Because of the potential severity of the impact of Congressional actions on our FY 1986 budget, it would not be prudent to commit any portion of the FY 1986 NFIP to a specific reprogramming. You should bear in mind that the original FY 1985 NFIP request for \$18 million for the SRC was reduced by \$6 million during Congressional review, and that action would seem to place the original FY 1986 and outyear funding profile in question. [redacted]

25X1

3. Based upon the foregoing, I am not prepared to entertain any request for FY 1986 reprogramming for the SRC. [redacted]
